FAX (314) 301-7100

March 19, 2001

Mr. Art Watson The Scotts Company Madison Warehouse 4300 Planned Industrial Drive St. Louis, MO 63120

Dear Mr. Watson:

On March 14, 2001, a "Level II" hazardous waste management inspection was made by Mr. Paul Morris of my staff at The Scotts Company Madison Warehouse in St. Louis, Missouri. The purpose of this inspection was to determine the facility's compliance with the Missouri Hazardous Waste Management Law and Regulations. The inspection was conducted under the authority of the Resource Conservation and Recovery Act (RCRA) of 1976 and Sections 260.375(9) and 260.377 of the Missouri Hazardous Waste Management Law (1977) as amended. Please review the attached Inspection Record and Checklist used by the inspector during the visit. Because no hazardous waste was being generated at the time of inspection, the facility's generator number was deactivated. The number must be reactivated when the facility generates hazardous waste again.

Because this inspection was classified as a "Level II" inspection, a response is not required by the facility at this time. However, please implement the recommendations into your facility's hazardous waste management procedures. This will augment your facility's ongoing compliance with the Missouri Hazardous Waste Management Law and Regulations. A follow-up investigation may be conducted in the future to ensure compliance with all hazardous waste laws and regulations.

Should you have any questions or comments, please contact Paul Morris of this office at (314) 301-7100.

Sincerely,

ST. LOUIS REGIONAL OFFICE

Mohamad Alhalabi, P.E.

Regional Director

DESCRIPTION OF THE EACH ITY'S OF	EDATIONS AND DI ANT			

The Madison Warehouse Corporation operates warehouses for the storage of materials for various clients such as Monsanto, US Postal Service and paper manufacturers. They formerly stored and sorted product for the Scotts Company and had shipped hazardous waste from their unusable product using the EPA number MOR00000265 under "The Scotts Co." name. The returned commercial and retail herbicide packages were received at the end of the growing season for sorting and repackaging as products for resale. In August 2000, this site number (MOD985806082) was opened under the name "The Scotts Co. Madison Warehouse". Large quantity shipments of hazardous waste from the 4500 building were manifested using this site number in November 2000. The facility still stores returned containers of herbicides for Monsanto for reuse after the end of the growing season. Any leaking containers were put in plastic over-slips and stored in 55 gallon drums to be determined by Monsanto personnel for use or disposal. The waste herbicides currently on site are not listed as hazardous in 40 CFR 261 and this facility is not currently generating hazardous waste. If hazardous waste is generated in the future the generator number must be reactivated.

L. O	FF-SITE SHIPMENTS TO APPROVED COLLECTION CENTERS			
1. 🗆	Used oil is transported by transporters who have obtained EPA Identification numbers - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24.	1		
(if no lik	censed transporter is used)			
2. 🗆	Transports used oil in a vehicle owned by the generator or owned by an employee of the generator - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24(a)(1).	2		
3. 🗆	Transports no more than 55 gallons of used oil at any time - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24(a)(2).	2		
4. 🗆	Transports the used oil to a used oil collection center that is registered, licensed, permitted, or recognized by a state/county/municipal government to manage used oil - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24(a)(3).	2		
OR	·			
5.	Transports the used oil to an aggregation point that is owned and/or operated by the same generator - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24(b)(3).	2		· ·
OR	· <u></u>			·
6. 🗆	Used oil is reclaimed under a contractual agreement (tolling arrangement) - 10 CSR 25-11.279(1) incorporating 40 CFR 279.24(c).	2	•	
M. R	ESOURCE RECOVERY			
1. 🗆	RR certification for energy recovery or reclamation of hazardous waste on-site - 10 CSR 25-9.020(1)(A)3.	1	GOR	COMMENTS
2.	Still bottoms or RR residues disposed of properly - Section 260.380.1(7) RSMo.	1	GOR	
3. 🗆	<del></del>	2	GOR	
4.	Facility meets the operating conditions of certification - 10 CSR 25-9.020(3)(E)3.	2	GOR	
5.	Facility has submitted a written request and received approval from the DNR for all changes in operation including closure - 10 CSR 25-9.020(3)(E) 1 and 2.	2	GOR	
6. 🗆	Facility report submitted to DNR quarterly - 10 CSR 25-9.020(3)(E) 6 referencing 10 CSR 25-7.264(2)(E)3.	2	GOR	
7. 🗆	Facility maintains a written operating record - 10 CSR 25-9.020(3)(E) 5 referencing 40 CFR 264.73(b)(1) & (2) as modified by 10 CSR 25-7.264(2)(E)2.	2	GOR	
8.	Facility has notified EPA and the state that it qualifies for a small quantity on-site burner exemption or has interim status or a permit if it burns hazardous waste on-site - 10 CSR 25-7.266(1) incorporating 40 CFR 266.108 and 40 CFR 266.103.		GOR	
9. 🗆	R2 facility uses an adequate sampling and analysis plan to assess incoming shipments - 10 CSR 25-9.020(3)(C)1.	2	GOR	
10.	R2 facility maintains a daily log of manifest number, wastes received, disposition of waste and corresponding sampling data - 10 CSR 25-9.020(3)(C)2.	2	GOR	
11.	R2 facility has a written closure plan which meets 40 CFR 264.112 requirements - 10 CSR 25-9.020(3)(C)3 referencing 10 CSR 25-7.264(2)(G).		GOR	
	R2 facility provides financial assurance for closure - 10 CSR 25-9.020(3)(C)4.	2	GOR
